

YEA CPD Series 2022

The YEA CPD webinar series topics has been put together exclusively by young engineers for young engineers. They have been designed to help highlight and gain an understanding of the unique issues, trends and challenges faced by young engineers in the workplace as they start their career journey.

The aim of the YEA CPD series is to provide educational content that bridges the gap between what you learn at university and what you need to know in the workplace by delivering learning opportunities that you can practically apply on the job. There will be one CPD webinar scheduled each month and recordings of past webinars will be available exclusively on EA OnDemand.

Webinar Calendar

Month	CPD Webinar Topic
